Good Afternoon,

I stated it could be a conflict, but am unable to verify that information. We are to take the information provided by each PAC or Committee at its face. I reached out to the committee asking that explanation be offered per the information you provided, Friends of Bill Shoemaker then fulfilled that request by providing the requested documentation/explanation.

My understanding is that any further investigation or inquisition would need to be conducted independent of our office and any further complaint filed with the court. Our office is unable to give any legal advice and I must recommend that you consult with your solicitor.

I appreciate your patience and understanding.

Elizabeth Sieb
